PROGRAMME COURSE AS FREESTANDING COURSE

DIRECTIONS

Programme course as freestanding course

When applying for studying a programme course as a freestanding course, the student should be informed that his/her general and specific entry requirements are reviewed for admission to the course.

The applications are reviewed first when students returning after an approved leave from studies, and students having changed study venue, are given places. In the case that there are not enough places, students are selected primarily on the basis of previous study qualifications.

The department offering the course is responsible for admission and registration.
